Our Company

The firm maintains immediate and direct access to Cyprus’ highly attractive tax and corporate offerings, while at the same time, it is situated on the stepping stone to Europe, the Middle East, Asia and Africa.

Moreover, the company’s Russian and CIS clients are handled by an in-house, fully fledged Russian desk, staffed by experienced native Russian speakers.

Trusts

A trust is created when assets are transferred from the instigator of the trust, called the settlor, to a trustee. The trustee then becomes the legal owner and is responsible for managing the assets for the benefit of the beneficiaries of the trust in accordance with the terms of the trust deed. The trustees are the legal owners, whilst the beneficiaries are the equitable owners.

Trusts and in particular the Cyprus International Trust (CIT), are widely used for tax and inheritance planning or to protect the ownership of assets. Assets may be comprised of any kind of property, including bank deposits, immovable or movable property, jewellery, works of art and of course, shares.
